at 7:30 P.M. at Clear Lake Park Building
November: Auction, December: Party

NEWS FLASHES

MALL SHOW

The club is going to try to hold a mall show on March 7, 1987. This show will be held at Deauville Mall, I-45 and Bay Area Blvd. We are going to try to have other airplane clubs, R/C boat clubs, C/L clubs, model rocket clubs, R/C car clubs, and plastic model clubs join in. There will be judging in each of these categories. We will need help to run this. If you have any questions or suggestions please contact Steve Rothstein or Frank Fire.

CLUB AUCTION 13 NOV 86

Once again it is time for MSC-RCC to have our annual auction. Last year was a tremendous success, and we expect an even bigger auction this year! This auction, just like last year's is a consignment sale, so bring your R.C. equipment that you want to sell. All sellers are requested to come early (6:00 p.m.) so that we can list your items before sale time. Reserves and minimum prices will be honored, but please be reasonable and fair. MSC-RCC will \$1.00 per lot commission on all items to be offered for auction. Also there will be a buyer's registration fee of \$1.00. These auctions are exciting! The selection of airplane, field equipment, building materials, radios, and engines is truly astonishing! So come early and stay late. The bargains will be great!!!

Date: 13 November 1986 Time: 7:00 p.m.
Place: Clear Lake Park Building Auctioneer: Craig York

For further information, please contact Craig York, 644-4362

CLASSIFIED ADS

FOR SALE: Sig Cadet, O.S. Max .40, Futaba 6 channel with 4 servos, ready to fly, Field box + electric fuel pump. Asking \$300.00 for the complete outfit.

Contact: Debbe Conrad at 482-0031

President's Corner

Dear Member.

The October club meeting was held at the usual place and time on October 9th. Attendance was down due to the meeting clashing with the second Astro/Mets play off game, however 28 of the faithful made the meeting. Frankly I was suprised we got that many.

The Steering Committee met on October 7th and finalized the changes in the Club Rules-Constitution-Bylaws. These were handed out at the meeting to those people wanting them. I would like to thank the members of the Steering Committee for giving up their spare time to attend meetings and I think the changes made should see the Club through the next few years. All members will get copies of the updated rules with their Club membership renewal, which of course we are now starting.

Mr John Kiker gave the meeting an update on arrangements that had been made for the auction of the late Mr Mel Brewer's modeling equipment. Unfortunately by the time this newsletter goes out the auction will be over.

The Club auction is also close now, this being on November 13th. Mr Craig York gave the meeting a brief on the arrangements as they now stand. As I said in the last Club Newsletter we can not have too many volunteers for this event. Please come early, 6:00 P.M., to help or submit your articles for the auction.

A hot seller at this club meeting was the Club decal, which are the water transfer type and cost 25 cents each. Also a motion was passed at the meeting to inquire about an embroidered Club emblem patch for jackets. The club had these some years ago but inquiries I have made of the old company that made them reveals that they no longer exist.

However I have found a company locally that has given me provisional estimates of approximately \$4.00 per 4 inch patch over the phone. This could be revised up or down when they receive my letter and they see the type of design we require.

The results of our postal election for new Club officers for the 1987 season were made public by the adjudicator, Mr David Thomasson, after the refreshment break at the meeting. All told some 63 members voted and the results were as follows:

President:	Jon V Vincent.
Vice President:	Dennis Smerz.
Secretary:	Steve Hunter.
Treasurer:	David Hoffman.

After the November auction we have the Club's christmas party in December, so the first real meeting of the club will be the January 1987 meeting. I hope starting with this meeting in the new year we will be able to get back into a more normal routine and get the entertainment sessions going again. There is always a problem finding material for these programs and it is made even more difficult not knowing what you the members want. I would be grateful if you would contact any of the new club officers or the steerage committee and make your thoughts on this subject known to them. We do have funds available for the purchase or rental of videos. Videos can be obtained on a variety of modeling subjects, WW2, Full scale fly-ins, etc.

That winds it up for another month from my end. Enjoy your flying but do it safely.

Yours Faithfully.

.....
Capt Jon V Vincent.

You never know who
you might meet at the
NASA Duel Elimination

contest sanctioned by the AMA

Come one come all to the
