PRESIDENTS CORNER

A reminder, we have the July 24th 11:00-2:00 performance to give for Space Week 83' at NASA. Mike Baker and Ken White are setting up the details for the contest part of the program. We will also set up static displays of scale sport and old timer planes. All can fly if you desire. Lets all get out there and give a good impression to the general public.

We have another request which we have received since last club meeting. We have been asked to participate in the Lunar Rendezvous Festival on July 16th at NASA. I contacted a large number of our members and we feel we should participate in a 2-3hour performance. They asked us to start at 10:30 in the morning of July 16th and do our thing. Bring sport, scale old timer and whatever and we will do our best on short notice.

SEPTEMBER MEETING

Our annual auction is scheduled for this meeting. Start making your plans to buy and sell. What we really need is a good "MOTOR MOUTH" to step forward and act as the auctioneer for this event. Any likely candidate????

For those of you who missed last meeting we now have fuel available.

15%nitro synthetic oil \$8.00/gal.

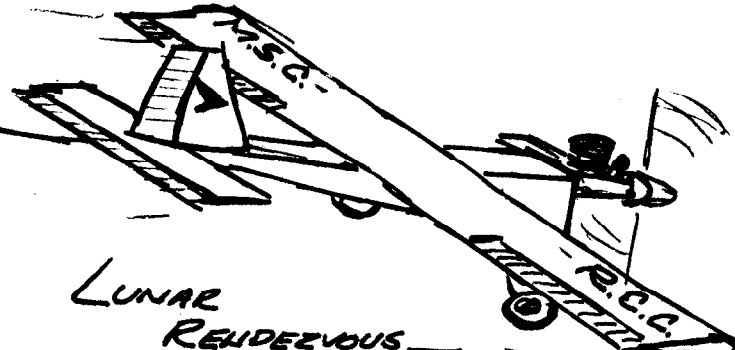

5%nitro synthetic oil \$6.50/gal.

See H. Lee, D. Centnar, D. Thomasson, M. Baker
 Sat. July 16th Lunar Rendezvous 10:30am.
 Sun. July 24th Space Week 83' 11:00am.

SAFETY

Guys with all the activity coming up in July "safety" should always be on our minds. Some points of interest: Remember the AMA Safety Code (last page AMA Reg.), Don't forget range checking, Frequency pins, "NO" flying over spectators and general common sense. Practice makes Perfect! Don't forget July 16th and 24th we need flyers for both weekends. Give it a shot!! LET'S FLY!!!!
