PRESIDENTS LETTER WHO IS ON VACATION

We thought we were coming north for cool weather and so far have we been fooled, a 100°f or better since we left Texas, High winds and rain each night.

Today, (July 23rd) we visited the EAA museum here in Milwaukee, had about 200 planes on display in one large building, planes from the 1920's to current. Mostly sport and homebuilt was not enough light to get pictures with my camera, spent a good part of the day there. We did however, find time to take a tour through the Pabst Brewery and sampled the various products. Multiple samples were required to prove product quality.

Our plans are to leave Milwaukee tomorrow and go up into Canada for most of the week and return to Oshkosh next Sunday for the big EAA show. Hope the weather cools off some. We have noticed a large number of planes heading that direction already. No motel reservations to be had any where close by.

I hope the weather is good for you all, and our club performance goes well on the 24th for 'Space Week 83'. I want to thank those brave souls who tried to fly off Lake NASA July 16th for those spectators who somehow came out for the "lunar Rendezvous". All I can say was it was sure wet as He--! See you all at the next club meeting.

Dave T.

EDITORIAL COMMENT:

Recent observations regarding club activities are, to say the least, very disheartening. Why you ask? As the events occurred in the not so distant past, J.S.C. requested a COMMAND PERFORMANCE of a flying demo by our club. Now, in the short 6+ years that I have been in the club, I can't remember this ever happening. As our President stated to the membership through the newsletter, we should all make an effort to attend and/or participate in this event. For a club which has over 120 members to have only about 20 people show up and participate is a damned poor showing!! That figures out to a meager 10% turnout. Referring to the old cliché - Get someone else do it - Well, someone else died in '78. - 1878 -

Many of us do not realize how well off we are to have a facility such a J.S.C. to enjoy our persue hobby and sport of Model Aviation. Look around the area and do some comparing.

Anyone with opposing views or opinions has the use of this publication to air their views.-----

I would also like to clarify a point. That being that I am club newsletter editor. I am co-editor. Mike and Julie Baker are Joint editors. I would publicly like to thank Mike and Julie for their help with this publication.

Come next meeting, I won't see all you good folks. The wife and I will be in St. Petersburg, FLA. See you in Sept. at the auction.

Dick C.

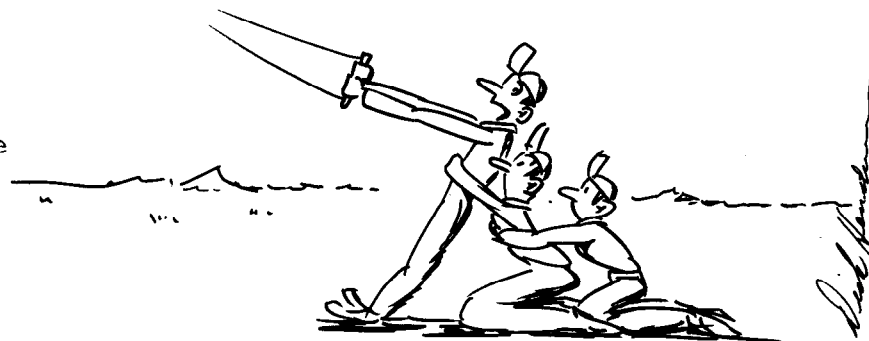

JUSTASK

FUN FLY OF SPACE WEEK 83'

Results of Fun Fly reported by Ken White are as follows:

- First Place: Joe Farley
- Second Place: Jimmy Ashley
- Third Place: Mark White

Want to thank everyone who participated.
 " THANK YOU " Ken W.

"I FIGURED A QUARTER SCALE CONTROL-LINE WOULD BE A REAL CHALLENGE."
