The Newsletter of the *Manned Space Center Radio Control Club.*

PILOT TO CREW...

By the time you get this newsletter most of you will have voted for a new President and Vice President of the United States. I also hope you have sent in your votes for club officers by now. If you haven't, please bring your ballots to the next club meeting and give them to Dave Hoffman. The totals will be announced and the new club officers will be installed after the refreshment break. The Holidays are fast approaching and the club Christmas Party is scheduled for December 8th. As we did last year, we plan to have members bring 'the goodies' so we can all share. A volunteer will be the coordinator for the party and will assist people as to what type of food dishes to bring to assure a variety.

Speaking for the club officers and myself, this has been an interesting year. We have experienced the first stage of the "new" Radio Frequency Program heading toward "1991" with many questions still unanswered by the AMA, the FAA, and the manufacturers; re-arrangement of our flying site layout; successful collaboration of our club with the Prop Nuts to have several excellent fun-flys, scale contests & big birds; and the increase in father-son membership. We the officers appreciate the membership's help in making our job easier. I would like to thank Joe Kastetter, our club newsletter editor, for his efforts to keep a newsletter alive for the club.

This "pilot" is ready to hand over the controls to a new "crew". Remember, this is your is your club; you the members make it what it is!

DENNIS R. SMERZ

NEXT MEETING
THIS THURSDAY
NOVEMBER 10th
at 7:30
 in the Clear Lake Park Building

INSTRUCTORS:

Dave Thomasson	471-0642
Dave Hoffman	479-1945
